

## Het Heerlijkeland Farm

Fernande and Vera are working tirelessly on this CSA no-dig garden to make it compost sovereign and pest free in the nearest future.

Please read the signpost

Entrance into the farm

No-dig beds with composts, woodchips and a walkway in between

Preparation of a new bed with cardboards, composts and woodchips

Measuring accurate distances to create new beds

Compost application and the clearing of weeds from existing beds

Taking out weeds from their roots by hand

Shovelling off thick-rooted grasses before compost topup
