

## Pluktuin De Basis and Pluktuin De Bosrand

Pluktuin De Basis and Pluktuin De Bosrand are both managed by Francine and Petra respectively, on the same farmland. While Pluktuin De Basis has been transformed into a full no-dig garden. Pluktuin De Bosrand on the other hand, is struggling to meet up with this transition in her perennial garden. Read what challenges Petra is facing that restrict a smooth transition into no-dig and how she proposes to tackle them on our website.

Farm signpost

Entrance into the farm

No-dig beds labelled with plant's name and dates

No-dig beds with mulching to aid soil water retention

Irrigation equipment mounted in a no-dig bed

Irrigation water sprinkler at work

Perennial garden where digging occurs

Perennial garden with grapes planted in

Farm relaxation spot
